CAPT. LEE RAGAN '83

HYSTERICAL NEWSLETTER
VOLUME I, NUMBER 8

DECEMBER 1983

HAPPY BIRTHDAY CAP

I'm sure it does not take a cover on a journal of this nature, as prestigious as it may be, to remind us that as of the first of December we are officially 42 years of age. None the less, thanks to Lee we have one. Any similarity between the cartoon and a very prominent CAPer is purely intentional. It seems that our leader has taken a liking to our covers and expressed a desire to have one of Lee's originals made available to him for use in his office. Being slightly elfish by nature, despite our collective sizes, Lee and I decided to pick on the boss a bit and dedicate a cartoon cover to him. Ultimately, I'll deliver the original to him on behalf of all of us.

On the more serious side, for the benefit of those of you who are not familiar with all of the details of our program I would like to point out that General Brookfield has been a real supporter of our committee and its activities. Like all really effective leaders, he has provided us with a job to do and the necessary backing to get it done. His quiet supportive position has made the accomplishment of many of our goals possible with a minimum of strife.

RECORDS ACCUMULATION

At this juncture, I'm reminded of the South Louisiana adage that; "When you're up to your neck in alligators, its difficult to remember that your primary objective is to drain the swamp." For the case at hand the "alligators" are 13 boxes of material and the swamp is preparing them for insertion into the Archives at Albert F. Simpson Historical Research Center (AFSHRC). So far, I have been able to kill off a couple of alligators in that approximately three linear feet of files are ready for delivery. What is involved here is screening, organizing and indexing the material and binding. Binding has to be done in such a manner as to insure its protection from damage while being used without interferring with its being microfilmed. Microfilming is a vital part of our program with plans being for all items to be microfilmed and copies of same being provided to us, the National Archives and the Library of Congress. As a matter of information, this process will take about 6 months from the time I deliver the material to AFSHRC. Processing to date has necessitated issuance and/or revision of numerous indices. All of these plus a revised general index is attached for your use in updating your "Compilation of Indices."

ORAL HISTORY

Still a matter of concern due to lack of volunteer typists. Any suggestions?

TALKING BOOKS

At the close of our Las Vegas Seminar I was approached by a member who had lost his sight in his adult years. He advised that although a history graduate he had no interest in CAP history prior to his blindness and regretted the fact that he had not read Flying Minute Men. The thought occurred that we may have other members with a similar problem and that the blind public in general may be interested in our history. Upon returning home and numerous negative contacts, I reached a truly lovely lady at Taping for the Blind in Houston. Going by the name of Kay Bryant, this lady not only agreed to undertake the project but did so in such a manner as to really epitomize the Volunteer spirit in helping your fellow man. Net results are that we now have Flying Minute Men recorded on 6 standard 90

minute cassettes. Kay has also agreed to do other books such as "Sank Same" in the near future. In the meantime if you have a friend or acquaintance who can profit from the use of Flying Minute Men in tape form, let me know and I will reproduce a copy for them. You can either provide me with their address and I'll mail direct, or if more appropriate, I'll mail to you for further distribution.

GOALS

Our Oral History Goals are "bogged down" due to lack of typing help. Many items are contingent on December approval by NEC of Historical Program Regulation so keep your fingers crossed.

SEASONS GREETINGS

Carol and I would like to take this opportunity to wish each of you the very best for the entire forthcoming Holiday Season. May Santa treat you and yours well and father time be as gracious as possible is about the best way I can sum up our feelings. It goes without saying that both of us have greatly profited from our relationship with each of you and are looking forward to a continuation of this fine association in the forthcoming year.
